# Metal Drawer System

## Drawer Assembly Specification

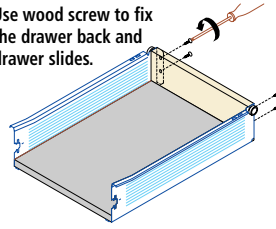

1. Use wood screw to fix the drawer bottom and slides.

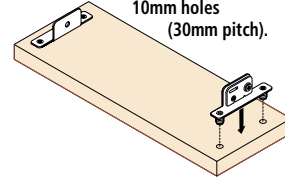

2. Place drawer back between drawer slides.

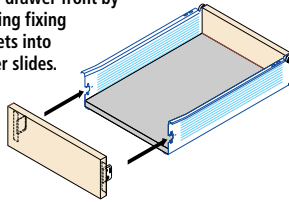

3. Use wood screw to fix the drawer back and drawer slides.

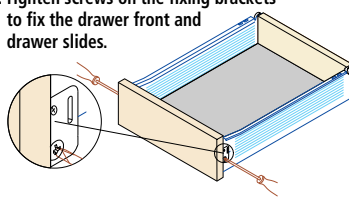

4. Attach fixing brackets onto drawer front with predrilled 10mm holes (30mm pitch).

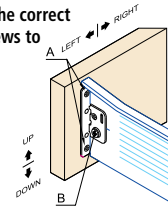

5. Install drawer front by inserting fixing brackets into drawer slides.

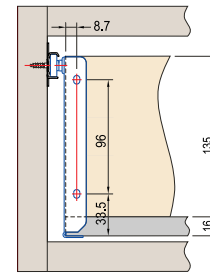

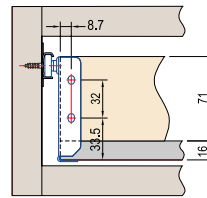

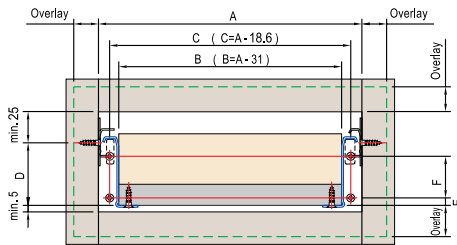

6. Tighten screws on the fixing brackets to fix the drawer front and drawer slides.

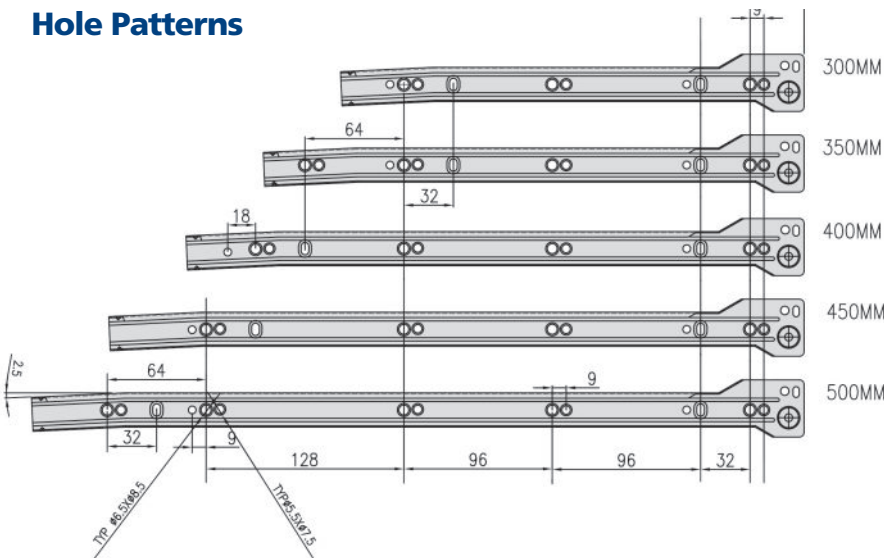

7. If the drawer front is not in the correct position, use adjustment screws to adjust. "A" is to adjust left and right, "B" is to adjust up-and-down.

Drawer Height	D	E	F
86	80	8	64
150	144	72	64
